SOLE AGENT FOR THE

Just before the adjournment of the last session of Congress Senator JONES introduced a bill authorizing the coinage of twenty-cent pieces. The bill passed the Senate without opposition, and went to the House on the last day of the session but was not reached before adjournment. The consideration of this measure will be one of the first that will come before the House after its meeting in December and as all the mint authorities are in favor of the new coin, the bill of Senator JONES will, no doubt, soon become a law. This will do away with the bit nuisance and give us a chance to get back some off the odd change we have lost in paying fifteen cents for things which in reality were only worth a "bit."

COLONEL J. Q. A. STANLEY of this city, has just returned from a somewhat extended trip in the Southeastern part of the country, and he reports that though a resident of this part of the State for the past twenty years, the prosperity and improvement which he saw at all points visited were causes for astonishment. The new houses, new orchards and groves and newly cultivated fields were gratifying sights and afforded unmistakable evidence of a rapid increase of population made up of the class of people we so much need. There is still room for more. Los Angeles valley is capable of supporting a million people, and it offers the finest opportunity in the world for the erection of beautiful and comfortable houses. Cheap, rich lands in a semi-tropical climate are within the reach of all comers.

WITHIN the last forty-eight hours, a little more than an inch of rain has fallen in this vicinity. The effect has been very fine in the country, but in the city quite the reverse is noticeable. The streets are converted into broad lakes and fathomless mud flats. In many places the high ridge made by the gas company serves as a dam to prevent the water running away, and the depth of water and mud above the embankment at several points defies the power of implements used in deep sea soundings. Parties are about to apply to the Council for license to keep a ferry at several street intersections, and one party will ask permission to plant an oyster-bed in a lake on Main street, provided he can obtain from the Water Company the right to water his own oysters. The present condition of our streets would disgrace a Chinese back yard.

THE *Express* asks, "What is the HERALD?" and proceeds to answer in its own way. We will try that style of catechism. What is the *Express*? A small sheet, started and supported by means of aid obtained from the Republican party on the promises and protestations of its publishers to advocate and maintain the principles of that party, but after obtaining a considerable sum from the Republican County Committee, dazzled by the glitter of inducements offered by certain Democrats, it disregarded its professions and advocated the election of a Democrat. It then accepted the offer of a ring and entered upon the dirty work of slandering and maligning a worthy and respectable citizen; and when asked by a well known and well informed lawyer, over his own signature, to publish a statement refuting its slanders, it proved itself a slanderer and villifier, deserving the execration and contempt of all good citizens by refusing to do so. This is our answer to the question, "What is the *Express*?"

The Slanderer Pilloried.

For a week past the *Evening Express* has filled its columns with a series of falsehoods concerning Mr. BEAUDRY relative to a lot owned by one BERNARD and about which a lawsuit ensued between Mr. DES AUTELS and Bishop AMAT. The charges of the *Express* were known to be false, but it iterated and reiterated them until Colonel SMITH, who is the attorney of Mr. DES AUTELS in the case, deemed it but justice to all concerned to place a correct statement of the facts before the public over his own signature. He wrote the document and handed it to the *Express*, with a request to publish. His request was refused. If anything more were needed to prove that paper a deliberate falsifier it is found in its refusal to publish the card of Colonel SMITH. The following is the card, and it fully exonerates Mr. BEAUDRY from all blame in a case in which the *Express* has charged him with acting a criminal part:

A CARD.

EDITOR *EXPRESS*: A writer signing himself "Citizen," in your issue of yesterday, asks whether there is any explanation of the charges made by you against Mr. Beaudry with reference to the Bernard lot, and hopes for the sake of common decency that some explanation may be given. As I am the counsel for Mr. Des Auteles in his case against the Bishop, and as such probably more familiar with the facts of the case as they appear on the records than anyone else except the opposing counsel and the Referee who tried the case, and as what has been said is calculated to prejudice the case itself as well as Mr. Beaudry, it is perhaps incumbent upon me as well as on account of the interest of my client in fairness to Mr. Beaudry, to answer the inquiries of "Citizen" by correcting certain misapprehensions under which you appear to labor in regard to the matter.

In the first place, there is not the

slightest occasion for the virtuous indignation excited in your press and in that of the *Star* and of "Citizen" and of other disinterested parties on account of the injury supposed to have been done to the city. The controversy has been altogether a private one; and had not Mr. Beaudry's grantee, Mr. Des Auteles, recovered the land, the Bishop would have held it as part of the College lot in which it has been enclosed for the last six or eight years; and in no possible contingency even had Mr. Beaudry never been born, would the city have gotten a foot of it. In order that this may be apparent, I will give a brief history of the whole litigation in reference to the matter.

In the year '62, Bishop Amat applied to the Common Council for a tract of 20 acres of land lying in the upper part of the city, for the purpose of building a college. Being the same tract of land now called (perhaps ironically) the "College" lot. The petition was accompanied by a map of the tract, on the corner of which were two of Ord's lots marked, one "Claude," the other "Bernard." In accordance with the petition and for the purpose of building the college aforesaid, a deed was ordered by the Council and executed by the Mayor to the Bishop for the said tract of land, but "Claude" and "Bernard" were not mentioned.

It seems, therefore, that there can be no doubt at all that the land had been granted to Bernard prior to that date, although Mr. Bernard now says it was not and we can only account for the apparent contradiction by supposing forgetfulness on his part in reference to a matter of small pecuniary importance, or that he supposed the deed to be for other lands. Such cases are not at all unusual, and I myself know of cases of men who have applied to the Council and received deeds, as they supposed, for land on which they were living, but which turned out to be other lands, and have only discovered the mistake after many years of unsuspecting possession.

Passing from this matter—Several years since Mr. Beaudry purchased from the Bishop a tract of land, part of the Canal and Reservoir Company's lands, and when engaged in fencing the same, was stopped by the agent of the Bishop, who claimed that Mr. Beaudry's tract included about five acres of the college tract. Not admitting the validity of the Bishop's title, Mr. Beaudry determined to litigate the matter, and his attention having been called to the previous grants to Claude and Bernard, he acquired the titles of those gentlemen, with a view of strengthening himself in his controversy with the Bishop. Those gentlemen were willing to make the transfers, and there was certainly no violation of law or propriety in Mr. Beaudry's accepting them. It turned out on the trial that Mr. Claude had many years ago made a deed to the Bishop for his lot and that the Bishop claimed that he had enclosed the Bernard lot with his fence under a parcel license or grant from Mr. Bernard. The Bishop is well known in this community and it is perfectly clear that he never would have enclosed the land had he supposed it belonged to the city, or that there was any doubt as to Mr. Bernard's title. The fact that he held it for many years under Mr. Bernard's parcel license or grant, shows conclusively what his views of the matter were.

It is evident, therefore, that the absurd charge that the city was in any way defrauded, is entirely without foundation; that the whole matter, in effect, concerned only the private controversy with Bishop Amat.

It will be understood that I do not write the above as the advocate of Mr. Beaudry in the election, but that I would freely do as much for any of the other candidates did the occasion demand it; also, that the above facts are based exclusively on the records of the case, and came to my knowledge on the trial; and any one can satisfy himself of the correctness of the statements here made by referring to the papers in the Clerk's office.

Respectfully, your ob't servant,

GEORGE H. SMITH.

The Facts of the Case.

Since the *Express* commenced charging Mr. BEAUDRY with having been guilty of a criminal act in a certain land transaction and announced its determination to lay the case before the Grand Jury for investigation, we have, on several occasions, asked Mr. BEAUDRY to give us a statement of the facts, but he declined to notice the false and malicious charges until an opportunity was offered to define himself before the legal tribunal at which the *Express* had stated it would bring him. But as his maligner continued to reiterate its charges without manifesting the slightest intention to have them legally investigated, at the request of friends he gave us the following, which is all that transpired between himself and BERNARD relative to the lot in question:

One day Bernard was in my office, when I told him that I was losing five and eight-tenths acres of land which I had purchased partly from George Hansen and partly from the Canal and Reservoir Co., through the Bishop's having a deed from the city to twenty acres which he supposed was my land to that extent. He (Bernard) then said that he thought he had a lot also included in that Bishop's 20 acres, which was granted him during the time Marchessault was Mayor, but as he had conceived it almost worthless, had paid no attention to it for years; did not know whether he had the deed, but knew that action had been had in the Council granting him the lot. Then I told him that he could ascertain whether he had a deed or not, and suggested that by going to the city records he could settle that fact. He then stated that he had some difficulty with the Bishop in regard to the tract of land occupied by him (Bernard) adjoining the Catholic Cemetery extension; and that the Bishop claimed a portion of that land from him; that before this trouble the Bishop was in the habit of visiting him and his family, but since the dispute between them he had never visited his family nor saluted him.

A few days afterward he came into my office again, and stated that he had found no deed from the city to him, but had ascertained that the city had taken action granting him the lot. He said he didn't know how to word a petition for him, which I refused to do; but said that he might get my clerk to do it for him, which was done. Bernard agreed to sell me the lot, but after he had obtained the deed I told him that as he had stated to me that he placed no value upon the land, if he would give me a deed I would pay the

expense of it, which he did. Also, in further consideration that he was under obligations to me for having been exceedingly useful to him in settling the affairs of the Wine Growers' Association, in which he was interested, he offered me \$250.

That Bernard now makes so many false statements in regard to me in this matter, can only be accounted for by the fact that he is a large owner in the Los Angeles City Water Company.

Why They Struggle.

Claiming, as the Los Angeles Water Company does, the exclusive right to sell water within the corporate limits of this city, people wonder why they are so anxious to place their own creatures in the Mayor's and Councilmen's chairs. There are several reasons why the company is so anxious on this point, but one will suffice for the present. The company fix their own rates for water and collect the pay for it monthly in advance. Under the law no water company has the right to fix the rates for water at their pleasure. At its last session the Legislature amended section 548 of the Civil Code to read as follows:

All corporations formed to supply water to cities and towns and furnish pure, fresh water to the inhabitants thereof, for family uses, so long as the supply permits, at reasonable rates and on equal terms, and must furnish water to the extent of their means in case of fire or other great necessity, free of charge. The rates to be charged for water must be determined by the Board of Supervisors of the city and county, or city and town authorities, or when there are no city or town authorities, by the Board of Supervisors of the county, and two by the water company, and in case a majority cannot agree to the valuation, the four Commissioners must choose a fifth Commissioner; if they cannot agree upon a fifth, then the Judge of the county must appoint such fifth Commissioner, who shall determine the rates to be charged for water one year and until new rates are established. The Board of Supervisors or the properly elected authorities may prescribe proper rules relating to the delivery of water not inconsistent with the laws of the State.

No fair and equitable disposed Board of Commissioners would fix the rates for such water as is furnished Los Angeles at more than one-half the price people are now required to pay for it. Herein is found the reason why the Water Company can afford to spend thousands of dollars in securing the election of a Mayor and Councilmen who will ignore the law and permit the continuance of the present rates for water. If the Water Company's candidates are beaten at the city election by a ticket made up of men who will heed more the interests of the people than the demands of the Water Company, a Board of Commissioners will be appointed who will not only fix the price of water at reasonable rates but they will see that, in the language of the law, "pure, fresh water" is supplied. It is the fear of this justice that spurs the company to almost superhuman efforts to defeat Mr. BEAUDRY and the candidates for Councilmen who if elected will insist on an enforcement of the law.

The Candidates for Mayor.

(Translated from *Los Angeles Times* of the 19th inst.)

We may at last form a clear idea of the situation. There are three prominent candidates for the office of Mayor, who are Messrs. Tiffany, Sabich and Beaudry. The first has merely the support of the *Express*, in the columns of which we have read tirades of nonsense, hallucinations of a diseased brain which alone could shatter the hope that the estimable Mr. Tiffany will be our next Mayor. Among other things, this organ on the 14th instant said: "How many of those petitions for quit claim deeds to lands which have been presented the Common Council during the past three years were mere dummies with Beaudry in the back ground?" Our contemporary, the *Express*, again merits the unenviable opinion which we formed of it on another occasion, for, to make such an assertion it knowingly deviated from the path of truthfulness. The *Express* knows full well that Mr. Beaudry has but little to do on the Land Committee, of which Mr. de Celis is Chairman, as it also knows that Mr. de Celis cannot be purchased as easily as some newspapers are bought.

And this brings to our mind another candidate, Mr. Sabich. As Don Francisco Sabich is a perfect gentleman, we have nothing to say of him in this respect, but notwithstanding all that we have seen in our contemporary, the *Star* of Saturday of last week touching upon the merits of this gentleman, we do not believe that Don Francisco P. de Sabich is the most proper person for Mayor of Los Angeles city. In our judgment he lacks much of being able under present circumstances to discharge the duties of such an office. The present time is a very critical one for our city, when a gigantic monopoly may be in the agonies of dissolution. Mr. Sabich is a very progressive man, but not sufficiently so to have attained to the knowledge that every monopoly is prejudicial to the interests of the people. At the session of the Common Council of Thursday of last week, judging from his vote, he was fully willing to grant new privileges to the Water Company, and openly supported the opposition to the motion to lay the matter over for one week, notwithstanding the question involved the closing of various public streets; of itself a serious matter. Through the judicious and reasonable arguments of Mr. Beaudry and some other members, this additional franchise, of which they are already glutted, was laid over, although from the experience it is presumable that the Water Company has sufficient influence over certain members of the Council to secure at the next session such action as will be acceptable to this insatiable water monster. We should keep in mind that Mr. Sabich by his action and by his vote, encouraged the Council to hastily commit itself to an act of favoritism.

For Mayor we need a man of intelligence, whose judgment will not be led astray by excitement of the mind, a person who knows and can calmly calculate the best interests of the people, who will promptly meet and energetically withstand all who attempt to subvert the public welfare to their individual benefit. Also, in the course hitherto pursued by Mr. Sabich, we believe, and there are many others who agree with us) that he does not possess these qualifications nor the force of character requisite, in case that his intelligence should discover the scheme, to oppose it against those influences which the ring would not hesitate to employ.

Latest Telegrams.

EASTERN.

Wool Market.
BOSTON, November 18th.—The market for domestic wools is quiet but firm, with a steady demand from the millers. Full prices are readily obtained for all medium fleeces and combing, with more inquiry. Leading holders are confident about prices and not disposed to press sales, as the demand for fine fleeces is believed to be only a question of time. Before the end of the season, fine fleeces are likely to be as scarce as any other kind. The production of wool being reduced by the manufacturers, will end in bringing about a healthy state of prices. Sales of Ohio and Pennsylvania fleeces at 52½¢ for medium double extra 57; treble extra fleeces, 49½¢; Wisconsin and Michigan, 57¢ and 62½¢. Pulled has been arriving more freely and prices are easier, although lots of superior light, in good condition, command full prices; sales, 34½¢ and 37½¢. California wool is quiet, with sales only at low prices; Coast Range, 20¢; choice late Spring, 30¢ to 40¢.

The New China Line.
New York, November 18th.—A telegram of the 16th instant was long-sought worded. It should have stated that steamship owners in England with whom Bradbury had talked about buying or chartering steamers for the New China line, hold no confidence that his principals sincerely contemplated taking the steamers at all. They evidently believed, from Bradbury's interview, that it was a case of bluff. Some railroad parties and a month ago that the new steamship company had actually organized.

That Name Old Story.
New York, November 19.—Judges McCue and Reynolds rendered a decision in the matter of the appeal from an order made at a special term of the Supreme Court denying the application of counsel for defense in the Tilton-Beecher suit to compel plaintiff to furnish a bill of particulars. Judge Reynolds affirms the decision of Judge Nelson denying the application for a bill of particulars. McCue holds that defendant is entitled to a bill of particulars, and that by granting it plaintiff's interests would not be impaired.

From Arkansas.
Little Rock, November 18th.—A joint resolution of the Senate and House of Representatives, passed to-day and passed to a second reading for appointing a joint committee to inquire into the manner of election of Senator Dorsey. The resolution will undoubtedly pass.

The Steamer Empire.
New Orleans, November 19th.—Divers were at work yesterday removing freight from the wreck of the steamer Empire, when the cabin broke loose and the bodies entangled in it were doubtless swept away, including the Keener family and all the other women, children, porters and waiters. An investigation was had before Inspector Moffatt, but nothing definite was arrived at as to the real cause of the sinking of the vessel. A diver who went down in the hull reports that it was much broken, a log-chain being wrenched out of the boat, leaving a large hole, which must have entered the water and which caused the vessel with her heavy freight to sink almost immediately. The boat is said to have been bumped during the night by incoming boats, causing a great strain.

FOREIGN.

From Over the Water.
LONDON, November 18th.—A meeting of Roman Catholics was held at Willis' Rooms this evening to consider questions raised in the controversy between Gladstone and Archbishop Manning, and resolutions were adopted. In Gladstone's recent pamphlet on the Vatican decrees were unanimously adopted, declaring that the civil loyalty of Roman Catholics is in no wise affected by the decree of Papal Infallibility.

SAN FRANCISCO.

The Temperance Convention—The Marks Case—Another Race Progress of the Palace Hotel.

SAN FRANCISCO, November 18th.—The State Temperance Convention was in session nearly all day. The attendance was quite large and the proceedings were conducted with much enthusiasm. George Barstow was elected President. The Committee on Resolutions, which was submitted their report, which was taken up for consideration.

The Platform urged that no license be hereafter issued to sell liquor for less than three dollars, and as much higher license and legislation was urged. This cause was subjected to a prolonged discussion, the position of the Convention being opposed to any suggestion seeming to sanction the sale of liquor under any license. Others estimated that the license at present proposed a partial remedy. The greater part of the afternoon was taken up in the discussion of this cause.

The amendment was finally adopted, by a large majority, and the Convention with reference to the question of license as an unavoidable concession at this stage of the temperance crusade, and the cause as amended was adopted.

On account of the mysterious disappearance of one of the witnesses for the people in the case of Harbor Commissioner Marks, for embezzlement, the case was postponed to-day until December 15th. It seems almost impossible to bring this case to trial. In the pools for the trotting race, Occident sells \$450, Fullerton, \$320, Sam Purdy, \$120. Pools were again sold to-night at the Lick House. San Francisco, November 20th.—The weather is very clear and cold, with a heavy white frost this morning.

Much interest is manifested in the sporting circles over the great trotting race to be run between Occident, Fullerton and Sam Purdy, for \$5,000, on Thursday, December 3rd. If the present clear weather holds the track will be in fine condition, and excellent time will probably be made.

The seventh story of the Palace Hotel is nearly up; it will be the last one. The structure completely shuts out the head of Montgomery street,

and makes it look like a short alley. Men are at work on the building day and night.

The British war vessel Petrol, from Mazatlan, arrived last night.

Nevada News.

VIRGINIA, Nevada, November 17.—Last night two servant girls were seriously asphyxiated at the residence of W. S. Wood, on B street, and but little hope is entertained of their recovery. They both slept in a close room, and neglected to turn off the gas, which by some means became extinguished and filled the apartment. When found this morning, one was lying on the floor near the door and the other in bed; both apparently lifeless. One better than this evening no sign of reviving.

The Orphans' Fair, for the benefit of the children under the care of the Sisters of Charity, closed last night and was a complete success. The net proceeds will be nearly \$10,000.

Democratic Gathering.

SANTA ROSA, November 17th.—This evening a very large and enthusiastic Democratic meeting is being held at Ridgeway Hall, in honor of the Democratic success in the late elections. The hall is filled to its utmost capacity. Hon. R. T. Tuttle was chosen Chairman for the evening. Hon. J. Temple, Judge G. A. Johnson, and Hon. Barclay Henley have addressed the audience, and several other prominent speakers are to follow them. The meeting is building, and a cannon is roaring its thunder throughout the valley.

DIED.

WHITE.—In this city, November 20th, Abbie, daughter of Mr. and Mrs. C. E. White, aged 2 years and 6 months.

NEW TO-DAY.

LOCAL BREVITIES.

The Senator sails for San Francisco to-day.

Florence Kent is playing to fair houses in San Diego.

Messrs. Scripture & Elles, attorneys-at-law, have moved their office from No. 15 to Nos. 1 and 3 Downey Block.

We regret to announce that a little daughter of Mr. and Mrs. C. E. White, aged two years and six months, died yesterday of scarlet fever.

We call the attention of persons wanting a bee ranch to an advertisement in this morning's paper. The property is desirable.

A gold watch was found on the street yesterday. The loser will learn something about his property by calling at room 20, Downey Block.

Mr. W. W. Stetson, a former resident of Los Angeles, arrived yesterday on the Ventura, after an absence of three months. He will soon return to San Francisco.

Mr. W. J. Brodick has sold his book and music store to Mr. Louis Levin. We understand that Mr. Brodick will devote himself exclusively to the insurance business.

As a result of four recent rains, the rain-gauge shows a fall of about four inches. Present indications point to another season of sunshiny and every city will present a pleasing appearance as soon as the mud in the streets dries up.

We have a communication signed "An American" which we must decline to publish unless the writer's name is furnished us in confidence as a guarantee of good faith. This we hold as a rule inviolate, and all correspondents will please bear it in mind.

There will be a meeting of the Board of Directors of the Chamber of Commerce this evening, at 7 P. M., at the office of Judge Sepulveda. Every member of the Board is requested to be present as business of importance will come before the meeting.

Mr. J. Cappe will celebrate his forty-fifth birthday day at the Orient Saloon next Tuesday, the 24th. A fine lunch will be set, consisting of roast chicken, turkey, pig, and a host of other dishes to tickle the palate. Mr. Cappe wants all his friends to be on hand.

Rev. Gustav Borchard will preach to the Germans to-morrow at 9:30 A. M. in Good Templars' Hall. The German Sunday School will be held at half past twelve. A week from to-morrow Mr. Borchard will preach in Anaheim and there will be no regular services of the German Evangelical Church here. The Sunday School will be held as usual, however.

Occident, Fullerton and Sam Purdy have their great trotting match to-day. The race is to be won, best three in five for a purse of \$6,000. In the pools, Occident sells for \$450, Fullerton \$320 and Sam Purdy \$120. Pools were sold in this city at the Fashion Saloon last night. The Noyes & Dwyer and the sale will be continued at 1 o'clock this afternoon. The result of each heat will be telegraphed here and announced promptly from the pool stand.

The question of granting an additional lot on Fort Hill to the Water Company to facilitate the construction of the reservoir at that place, was discussed fully in the Council yesterday. A strong objection is raised against the project by residents on Fort street and others in the vicinity of the proposed works. Mr. Beaudry made an able argument in the Council against the proposition, and it was finally laid on the table for one week.

John Sedgwick, Collector of Internal Revenue for California, has issued a circular letter, in reply to an inquiry from a banking house in Stockton, in which he states that a party issuing or drawing a check or sight draft for any amount on a bank without affixing thereto a two-cent internal revenue stamp, thereby becomes liable of the penalty of fifty dollars for every such violation of the law. And any person passing such an unstamped check, or bank paying the same (without affixing the stamp) is similarly liable.

Dewey, Kimball & Co. will sell at auction to-day a large amount of property consisting in part of buggies, harness, robes, whips, oil paintings, carpet, rugs, etc. The sale will commence at half past ten, and will continue until the property is sold. It is suggested to any or all persons wishing to purchase cheap for cash anything from a needle to a ten-horse-power threshing machine, that by being on hand early in the morning they will be able to secure the property at a low price.

The Auction House of Dewey, Kimball & Co. is on the corner of Requena and Los Angeles streets.

The Alta has the following relative to one of our candidates for City Marshal: "We observe by the Los Angeles papers that Emil Harris is up for City Marshal of that flourishing city. Harris was one of the Vasquez captors, and stood his hand with the coolness and courage, ready to go for that notorious bandit on 'a short call.' He took, with the others, strong chances for his life; but strategy secured the robber without loss of blood. The fact that he was there and ready with his rifle to do his part, reflects on Harris' credit. Los Angeles cannot do better than reward him with the office of Marshal."

Common Council Proceedings.

FRIDAY, November 20th.

The Council met pursuant to appointment with the following members present: Councilmen Beaudry, Chavis, Valdez, Workman, Dockweiler, Sabich and Huber. Absent: DeCola, Gerkens and Mascarel.

Minutes of previous meeting were read and approved, with slight correction.

The Marshal reported the collection of \$2,119.15 on account of city taxes since last report. Placed on file.

The Marshal presented a general report of collections on account of the city tax this year. The total assessment was \$4,897.46; amount collected, \$37,808.84; amount delinquent, \$8,088.62. Of the amount delinquent, some \$2,000 of the assessments are on mortgages which are now in dispute. Most of the balance remaining will doubtless be collected. The report was placed on file.

The City Attorney reported that the law regulating the tax on mortgages was not very definite, but doubtless favored the refunding of taxes when they clearly comprehended a double assessment. As the amount involved is very large, however, the Attorney favored the plan of retaining all taxes collected on mortgages until the matter is settled by the Court. Report adopted.

The Zanjero reported that Mr. Gay, in excavating for the Main street sewer, had undermined zanja No. 8, thereby causing the zanja to break through its banks. On motion, the Zanjero was ordered to repair the zanja at once.

The Committee on Lands reported in favor of granting a deed to Paul de Pineda, as petitioned for. Report adopted.

The Committee on Lands reported in the matters of Messers and McLaughlin, recommending that both petitions be granted. Report adopted.

The Committee on Lands also reported on the petition of Mrs. Ruiz, stating that the petitioner had not submitted an abstract of title to lands for which she claims a deed, and recommending that no deed be granted until said documents are submitted and city ordinances complied with. Report received and approved.

A report of the City Attorney on this question to the committee was also read and placed on file.

The Committee on Lands presented a report, signed by Mr. Beaudry, which was as follows:

To the Honorable, the Mayor and Common Council:

Your Committee on Land, to whom was referred the petition of the Los Angeles City Water Company, asking for the use of lot 8, block C, Fort Hill, would report as follows:

We do not believe it will be advantageous to the city or water company to grant the use of the said lot for reservoir purposes, or to build a reservoir at all on Fort Hill; because the water to fill it must run through an open ditch two and one-half miles from their present reservoir, which is proof to every reflecting mind that it must contain some amount of filth as to render it unfit for domestic purposes. Or it must come from the swamp on Alameda street, which is unfit for use, and is sufficient in quantity, which is not the case, as the whole amount could pass through a two-inch pipe; and animals of various kinds are pastured there, which in itself would render the water unfit for domestic use.

The water company propose to build a reservoir of less than one-half an acre in extent, while they already have six and one-fourth acres which they can use without calling on the city for any more land.

All of which is respectfully submitted. P. BEAUDRY.

Mr. Chavis, another member of the Committee on Lands, who was present, stated that he had not signed the report, as it was contrary to his opinion.

By permission, Mr. Miles addressed the Council, attempting to controvert the statements of the Land Committee's report. He stated that an original grant of six and one-fourth acres had been made, but owing to the space taken up by streets, sufficient space had not been left for the reservoir. As a matter of necessity, the company were obliged to place the reservoir on the highest available land adjacent to the city, and this is Fort Hill. Instead of running muddy water in a zanja, the company proposed to furnish the reservoir with pure water from the city pipes.

Mr. Workman asked if the reservoir was only calculated to cover half an acre as stated in the report. Mr. Miles answered that the reservoir at present in contemplation would only occupy half an acre, but the plan was to construct a system of reservoirs to be constructed eventually which would occupy all of the space. Mr. Beaudry asked how much land was claimed by the Water Company. Mr. Miles and Dr. Griffin answered with the full explanations regarding the land already held—six and one-fourth acres—and the necessity of receiving the grant of the lot petitioned for, as the reservoir could not otherwise be located. In the matter of granting the lot, the plan of granting the lot to pump spring water and elevate it with pumps in a manner similar to the system used by Mr. Beaudry in his water works, emulating his example in enterprise and engineering skill. (Soft-soap for Mr. Beaudry.)

Mr. Beaudry stated that the Water Company, while he was connected with it may have had the assurance of all the land which they might require, but he did not remember it. As far as he was concerned he was in favor of having a reservoir on the high lands, in fact, he had offered a premium to the Water Company several years ago if they would construct such a reservoir, but they had failed to do so.

He thought that there were other places much better adapted to reservoir purposes than Fort Hill. The high lands over the Arroyo Seco he cited as an available location. In the matter of granting the privilege to the Water Company of running a flume from Alameda to Marchessault street, he made an extensive and strong argument against the proposition. If the Water Company wished to adopt his plan, let them establish a steam power or some other than water power. Fort Hill is the last place where a reservoir should be built for this city.

By request, the City Attorney read the act of the City Council passed July 1st, 1869, granting the land in question to the Water Company.

Dr. Griffin submitted to the Council a map of the section in question with further explanations.

Mr. Beaudry stated that he was not so much opposed to granting the lot as he was to the establishment of a reservoir on Fort Hill as he was to running a flume over private property in the northern part of the city.

Mr. Miles again addressed the Council offering still further arguments and explanations in favor of the Water Company's petition.

Mr. Workman asked the opinion of the City Attorney whether the city had the right to take the public street, Answer, no. He then asked if the city had a right to deflect a street. The City Attorney stated that he had anticipated this question and consequently submitted a written opinion, holding that it was the City's right to close a public thoroughfare, still, if the Council thought that to deflect the streets as asked for would be an improvement, they probably had a right to take such action.

By permission, Mr. C. N. Wilson addressed the Council, stating that a street laid out in a manner proposed by the Water Company would be impracticable, as no possible grade could ever be made to it. He hoped the city would allow Fort Street to continue to the top of Fort Hill as originally designed. He owned property on Fort street and had graded his lots to conform with the line adopted by the Council. If Fort Street were changed he would hold the city responsible for any damage which he might sustain.

The City Surveyor was called upon for his opinion and stated that the deflected street would be impracticable in grade than the extension of Fort Street. He stated, however, that a street could be made by deflecting more to the west, and this would be the only way to reach the reservoir by term.

By request, the report of the Special Water-Works Committee at the last meeting was read.

The Election.

By a resolution passed by the Common Council yesterday, a general municipal election was declared for the first Monday in December, the 7th prox. The election will be for the following officers: Mayor, City Marshal, City Attorney, City Treasurer, four members of the Common Council from each of the three wards and two members of the Board of Education to fill vacancies caused by the retiring of Wm. Pritham and Geo. H. Smith. The polling places are designated as follows:

For the First Ward at the house of Thornton P. Campbell.

For the Second Ward, at rooms of the Common Council.

For the Third Ward, at the Round House, Main street.

The officers of the election are as follows:

First Ward—Inspector, Oscar Macy; Judges, Geo. Winters and Juan Toro.

Second Ward—Inspector, Wm. McKee; Judges, G. Cabot and James H. Easton.

Third Ward—Inspector, Wm. H. Dennison; Judges, Louis R. Martinez and S. B. Cox.

The quickest way to make a fortune is to buy your goods at the Bazaar, corner of Main and Requena streets.

Splendid gents suits. Coat pants and vest for \$12. Very heavy. Gents' Satinet pants \$2.00 and \$2.50 at the Bazaar corner of Main and Requena streets.

For bill posting, distribution of circulars, programmes, cards, election announcements, and all other business of the kind, call on regular Bill Poster in the City Office at the City Office, or orders may be left at any of the following addresses:

Just received a tremendous stock of cigars, tobacco and smokers' articles at the Bazaar, 38 Main street, Perry & Riley Block.

I hereby certify the foregoing to be a full
true and correct assessment list in the matter
of the proposed widening and improvements of
the said city of Los Angeles, and that each
and all of said assessments are made and
payable in gold coin of the United States.

WM. MOORE,
City Surveyor.

Los Angeles, October 29, 1874.

SEC. 5. The Clerk of the Common Council
shall certify to the passage of this resolution
and cause the same to be published once in
the English and once in the Spanish in *La Cronica*,
and thereupon therefor this resolution shall
take effect and be in force.
